# PROJECT DESCRIPTION

- Our analysis and visualizations focus on improving how the City operates. This project will help the city understand trends that can be addressed at a strategic level. The focus is on how the influx of higher-income individuals, through buying and converting multiple-unit homes into larger, singular units, may be reducing the total number of housing units. Our project looks at the role remodeling and zoning conversions have played in the housing markets in Boston.

# WHAT WE HAVE DONE

- **Question Answered:**

- What communities are building more housing units?
- Which ones are losing housing units?
- Where are housing remodels and renovations happening?

- **Data Preliminary Analysis**

- Analyzed the changes in each type of unit undering 2009 - 2024
- Analyzed the trend of permits in different regions for each year.
- Checked out the new data dictionary and found some issues to analyze.

## QUERY RESULTS

# How many remodeling taken place in different area over different years

Top 10 neighborhoods

Number of Open Permits by Year for Top 10 Neighborhoods

Number of Closed Permits by Year for Top 10 Neighborhoods

# TASKS FOR NEXT 2 WEEKS

- Start writing draft of final report
- Display the findings of the final report through visual representations
- Analyze and research the datas and keys in the database.
- Come up with more meaningful questions and solve them.  
eg.  
How has the area of a specific geographic location changed over different years?

# PROJECT OVERALL TIMELINE

## Project Kick off

Begin weekly scrum reports

February 28th

## Mid-Semester Report

Comprehensive analysis of project

May 1st

January 29th

## Early Insights Report

Preliminary analysis

Now - April 8th

## Final Report

final report with visualizations,  
3-4 key questions answered, and  
discussion of project findings.

---

# PROCESS OF WORKING TOGETHER

- Meet for weekly client meetings
- Discuss progress during weekly lab sessions
- Team meet weekly every Friday to go over progress
- Keeping track of and engaging with Trello board & Slack
- Communicating with PM as needed
